## WORK EXPERIENCE

### **CodeCollective IT Solutions:** *Full-Stack Developer Intern*

07/2024 – 10/2024

- Designed and developed an Information System for SK LYDO in Tupi, South Cotabato, Philippines, aimed at enhancing administrative operations and streamlining record management processes for local youth initiatives.  
**Technologies Used:** HTML/CSS, JavaScript, jQuery, Bootstrap, PHP, and MySQL
- Implemented a comprehensive **Sales Report feature** in **Polaris Rx Pharmacy's Point-of-Sale (POS) system**, enabling detailed, automated insights into daily, monthly, and annual sales performance to support data-driven business decisions. Integrated **JasperReports** for dynamic report generation and visualization, enhancing operational efficiency and financial tracking.  
**Technologies Used:** Java, MySQL.
- Designed and developed a job application platform specifically tailored for differently-abled individuals, facilitating improved access to employment opportunities and seamless connection with potential employers.  
**Technologies Used:** Flutter, Node.js, Firebase

### **Full-Stack Web Developer (Freelance)**

03/2023 – Present

- Developed custom web applications for clients, with a strong focus on academic projects. Worked with students to build capstone and thesis systems such as library, inventory, and scheduling tools. Delivered functional, easy-to-use solutions aligned with project requirements and deadlines.
